Subject: Thoughts about the Impacts of Historic Mining document

Hi Bill,

I have been pondering what would be a good way to proceed with the development of the Impacts from Historic Mining document given your competing workload priorities.

How about this approach:

Instead of having a page limit, you compile the information in a way that is easiest for you.

Ex. 5 Deliberative Process (DP)

At your convenience, please save your references on the I: drive in this folder:

\\C0808F03EC005\Shar3\30 Day Share\Valois\Dewey Burdock\EJ Analysis\Historic Mining

How does that sound?

Thanks!

Valois
